

Bermuda Pointe

color board suggestions

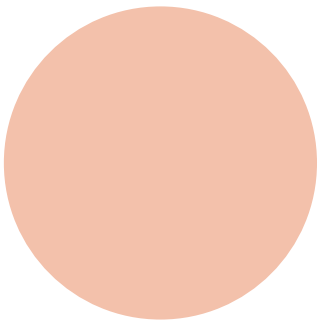

Bermuda Pointe is a unique neighborhood featuring a mosaic of pastel homes, reminiscent of those in Bermuda and the West Indies. The colorful houses, both small and large, are flanked by expansive verandas that lend themselves to social calls and evening cocktails with neighbors in our close-knit community.

Bermuda Pointe was developed to reflect the casual nature of life in the Lowcountry, where the amenities facilitate community interaction and encourage neighbors to become friends. The resulting fellowship results in an inherent sense of security and a communal commitment to the preservation of our beautiful neighborhood. This, paired with our location on a world-renowned island and the elegant, whimsical architecture of our residences, all reflect the true quality of living in the South.
